

Project Initialization and Planning Phase

Date	07-07-2026
Team ID	
Project Name	Automated Credit Card Approval Prediction using Machine Learning
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Credit card applicant	Get my credit card approved	I don't know if I'm eligible	Banks have strict approval rules	Confused and worried
PS-2	Bank officer	Approve applications quickly	Manual verification takes time	Many applications need checking	Overwhelmed
PS-3	Bank manager	Reduce approval risk	Wrong approvals can cause losses	Manual decisions are not always accurate	Concerned
